

HAMINA BASTIONI

HAMINA BASTION – THE BRIGHTEST STAR FOR EVENTS

On the shores of a northern sea, in southern Finland, there is a place where the stars have always shone more brightly than anywhere else. When Sweden started to fortify its eastern border against Russia hundreds of years ago, Hamina became a fortress town. The fortress town was built according to a circular town plan, and it obtained the name Fredrikshamn, in Finnish Hamina. The name refers to a harbour, a place where you can arrive in, something where you can become fixed for a while or a longer period of time.

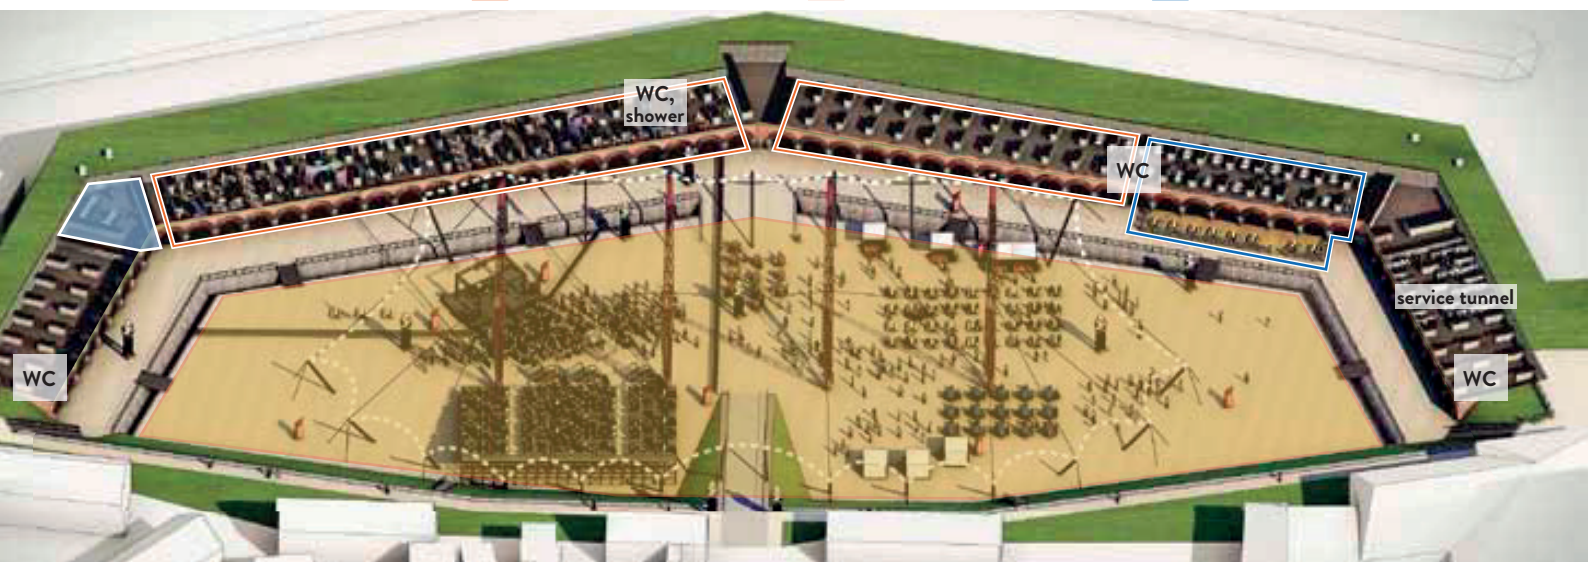

When the fortress was no longer needed for its original purpose, its central bastion was converted into a spectacular event arena. A canopy was erected above the arena, providing shelter from rain, and still giving an opportunity to be under the starry sky.

Hamina Bastion offers a star-class venue for an event! Its mysterious vaults have plenty of space and a magical atmosphere which is hard to come by anywhere else. It is a place where both older established stars and ones just emerging are sure to have a worthy venue.
